

Remote Work And Career Pivot

Litmus V2 career/resume RAG knowledge-base document.

Remote-role resume

Highlight prior remote work and skills such as self-management, asynchronous communication, and collaboration tools.

Career pivoting

Career pivoting means making a significant change in industry, function, or role while leveraging transferable skills rather than starting entirely from scratch.

Personal project portfolio

For a transition into a technical field without formal experience, a personal project portfolio provides tangible evidence of applied skills for hiring managers to evaluate.

Career growth trajectory

Career growth trajectory is the pattern of increasing responsibility, scope, or seniority across roles, signaling upward momentum.
